**Photography and Videography Guidelines from the *Celebrating Your Marriage* booklet:**

- No flash or video lighting may be used during the wedding service, designated by the bride reaching the front of the sanctuary/chapel and ending with the couple's kiss. Photography and/or videography taken during the ceremony must be from a stationary place and behind the last pew in which guests are seated. It is not appropriate for photographers/videographers to be moving during the service.
- The back balcony and side balcony are available for photography and/or videography. The choir loft is not available.
- The altar cross and candelabra may not be moved or removed by the photographer and/or videographer. The church wedding coordinator should be consulted for permission to move any church property.
- A photographer, videographer, or member of the wedding party will not have access to the MUMC sound board or lighting panel.
- All posed photography/videography should be completed 45 minutes prior to ceremony time and one hour 45 minutes after the ceremony time.
- The photographer and/or videographer must sign an agreement stating they have read the guidelines outlined in this booklet, and that failure to comply may result in forfeiture of the damage deposit. The signed form is due at the first consultation with the MUMC wedding coordinator.
